2. Product Governance essentials

This section is part of, and should be read in conjunction with, this Terms and Conditions/Client Agreement. In the event of any discrepancy between this Product Governance essentials and the Agreement, the Agreement shall take precedence.

2.1. Up Trend. You are entering into an agreement with us, Up Trend. We are authorized and regulated by the Bulgarian Financial Supervision Commission "FSC" with License № PF-03-110.

2.2. Target Market

- Trading in CFDs offered by the Company will not be appropriate for everyone and we would normally expect the product to be utilized by persons to whom some or all of the following criteria apply:
- Persons who have an acceptable level of knowledge and/or experience to understand the characteristics of CFDs and risks associated with trading on margin;
- Persons who have ability to bear 100% loss of all funds invested;
- Persons who have a high-risk tolerance; and
- Persons who intend to use the product for short-term investment, intraday trading, speculative trading, portfolio diversification and/or hedging of exposure to an underlying asset.

2.3. Risks

The value of the financial instruments which you gain an exposure in via a CFD (or other similar products) position may increase and/or decrease. You should make sure you fully understand the risks involved in trading CFDs (and related products) and take appropriate advice if necessary. CFD trading carries a higher degree of risk than ordinary share dealing and may not be suitable for every customer. A further detailed explanation of the risks associated with trading on the Trading Platform is set out in the Risk Disclosure Statement which can be found by clicking on the Terms and Agreements section of our website. ('Legal')

You have no interest in any underlying financial instruments, CFD trading does not give you any right to the underlying instrument of the Transaction. This means that you do not have any interests in, or the right to purchase any underlying shares in relation to such instruments because the CFDs represent a notional value only.

2.4. Your Transactions are your responsibility.

We do not and will not provide any advice in relation to a transaction, your portfolio or trading strategy. This means that we will not make personal recommendations or advise on the merits of purchasing, selling, or otherwise dealing in particular investments or executing particular transactions, any tax consequences or the composition of any Account or any other rights or obligations attaching to such investments or transactions. Therefore, you must rely on your own judgment in deciding to enter into or close a transaction.

2.5. The importance of Margin

Before you are allowed to enter into a transaction, you will generally be required to deposit money with us (known as "Margin" or "Balance"). This Margin will be calculated as a proportion of the overall Transaction value. This means that you will be using 'leverage' or

‘gearing’ and this can work for or against you. For example, a small price movement in your favour can result in a high return on the Margin placed for the CFD, but a small price movement against you may result in substantial losses. Margin is to protect you and us against adverse movements in your Transactions which result in you operating a running loss and / or owing money in relation to the said positions because the prices have moved against you since you opened them.

2.6. Trading and resultant Transactions are not carried out on an exchange or market

The trading you conduct on the Trading Platform is not conducted on an Exchange or a market. We act as counterparty (which means the other side) to the Transactions conducted on the Trading Platform which means that we act as the buyer when you offer to Sell an Instrument and the seller when you offer to Buy an Instrument. Further detail in relation to how we calculate our prices is set out in our Summary of Best Interest and Order Execution Policy.

2.7. You must act only for yourself ('as principal') and not on behalf of others

We will deal with you on the basis that you act as principal and not as agent for any undisclosed person. This means that, unless we have otherwise agreed in writing, we will treat you as our client for all purposes and you will be directly and personally responsible for performing your obligations under each Transaction entered into by you. If you act in connection with or on behalf of someone else, whether or not you identify that person to us, we will not accept that person as an indirect customer of ours and we will accept no obligation to them unless otherwise specifically agreed in writing. Further, failure to inform us that another person is operating the account on your behalf may result in us terminating the agreement, voiding any Transactions undertaking or closing any open Transactions.

2.8. Conflicts of Interest

We provide the Trading Platform for dealing in CFDs and do not carry out any competing activities which could give rise to a conflict of interest with clients or between clients. At no time can the interests of a client be harmed by the exchange of information or any other factor as envisaged under Article 23 of the EU Markets in Financial Instruments Directive. For further information please refer to our Conflict of Interest Policy which is part of the User Agreement and is located on our website.

2.9. Fees

Spreads, fees, interest and other charges will be payable by you when you trade using the Trading Platform. These charges will reduce your trading net profits (if any) or increase your losses. For further details please refer to Part Three of this agreement.

2.10. Complaints

We take complaints very seriously and have in place internal procedures, in accordance with FSC rules, for ensuring that any complaint we receive is dealt with promptly and fairly. If you would like to make a complaint, please contact us to raise your complaint. For further details please refer to Article 33 ‘Complaints and Disputes’ found in Part Four of this Agreement. For further information concerning safeguarding of client funds please refer to Article 16.

However, at our sole discretion and based on our re-assessment of your trading experience, we may allow you to increase your leverage level to 1:400 in the future. 12.6. The Company will use reasonable efforts to execute an Order, but it is agreed and understood that despite the Company's reasonable efforts transmission or execution may not always be achieved at all for reasons beyond the control of the Company.

12.8. The Company offers, through its website, the opportunity for the Client to open a demo account. The Client is notified and understands that the execution in the demo environment where a demo account operates might differ from the environment of a live account.

12.9. The Client acknowledges and agrees that the Company may, in its sole discretion, add, remove or suspend from the Trading Platform, any Instrument, on any market, from time to time in the event of a stock transformation event (for example as the result of a takeover, share consolidation/split, merger, spinoff, MBO, nationalization, de-listing, etc.) or if no Clients' Positions are held in a particular Instrument at that time. Additionally, in the event we are no longer able to continue to provide an instrument in its existing format, we reserve the right, in our sole discretion, to amend the content or terms of an instrument including its expiry date, trading hours or any other parameters in the instrument details tab by providing you with notice.

12.10. You agree that we may hedge or otherwise offset any transaction with other third parties in order to offset any liability or risk associated with any of your Transaction(s) you undertake with us. You acknowledge that we may, in our sole discretion, but at all times acting reasonably and in accordance with our regulatory obligations, amend the Content or terms of an instrument.

12.11. With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the Order is submitted. You agree that your offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by you in your Market Order, within a certain range as specified on the Trading Platform from time to time. If you choose to open a Market Order, your order will be accepted at the next available price offered on the Trading Platform, as defined by our Summary of Best Interest and Order Execution Policy.

12.14. Placing an Order does not guarantee that a Transaction will be entered into under the exact same terms that exist when the Order is placed. Similarly, with respect to a Limit Order, the price at which a Transaction is completed may not always be at the exact price displayed when the Order is submitted. The requested rate of a Limit Order is not guaranteed as the rate (price) can change by more than 1 pip at a time. You understand that Up Trend has the right to execute your Limit Order while taking into account the conditions offered on the instrument, including but not limited to the leverage ratio, at the time the Order is executed, rather than the conditions offered on the instrument at the time the Order was placed. If you choose to open a Limit Order, your order will be executed once the requested rate is reached or surpassed, as defined by our Summary of Best Interest and Order Execution Policy. APPENDIX ONE - CFD TRADING TERMS

1. Scope

1.1. This Appendix is applicable only to those Clients trading in the Financial Instruments of CFDs.

2. Types of CFD Orders

2.1. The following CFD Orders may be placed with the Company: market orders and pending orders.

3. Execution of Orders

3.1. In order to open a Transaction (Position) on the Trading Platform, the Client must either open a Buy (Long Position) or a Sell (Short Position), at the price quoted on the Trading Platform at the time of such Transaction. In order to close a Transaction (Position), the Client must either offer to Sell (in the case of a Long Position), or to Buy (in the case of a Short Position), the Instrument covered by such Open Transaction (Position), at the price quoted on the Trading Platform at the time of such closing. It is understood that every time the Client places an Order, the Company executes such an Order itself as counterparty. However, the Company has the right to hedge Client Orders with another third party.

3.2. The Trading Platform provides a Buy quote and a Sell quote for each Instrument traded on the Trading Platform. The Client acknowledges that upon opening a Buy (Long Position) or closing a Sell (Short Position) or vice versa, he may only do so at the price quoted on the Trading Platform for such Instrument.

3.3. Orders can be placed and (if allowed) changed within the Trading Hours for each type of Underlying Asset appearing on the Trading Platform and/or the Website, as amended from the Company from time to time.

3.4. On the Trading Platform, the Client shall be entitled to make an offer to open a Transaction (Position) at the best available price on the Trading Platform ("Market Order") at the time of opening such a Transaction (Position), unless the Client specifies a particular price at which to make an offer to open a Transaction ("Limit Order"). With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the Order is placed. The Client agrees that his offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by him/her in his/her Market Order, within a certain range as specified on the Trading Platform from time to time. If the Client chooses to open a Market Order, his/her offer will be accepted at the best possible price offered on the Trading Platform.

3.5. The Client agrees that the Company may hedge or otherwise offset any Transaction with other third parties in order to offset any liability or risk associated with any of the Client's Transaction(s). In the event that the Company is unable to hedge the Client's Transactions with other third parties, the Company reserves the right to amend the content or terms of a CFD Order including the expiry date, the trading hours or any other parameters in the instrument details tab.

3.6. Pending Orders, not executed, shall remain effective through the next trading session (as applicable).

3.7. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.

3.8. Orders shall be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it shall be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Client Account Equity reaches zero.

3.9. The Orders cannot be removed once placed. Pending Orders may be deleted or modified before they are executed.

3.10. The Client may change the expiration date of Pending Orders before it is executed by cancelling it and placing a new Order.

3.11. Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).

3.12. The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue. It is the Client's responsibility to be aware of his positions at all times.

3.13. Speed of Execution might be affected by factors which may include poor internet connection or any other link to the Company's servers and platforms which may affect execution of the Client's orders. For example, in some cases a Client's order might be delayed being received by the Company's platform and thus it may affect the price of execution.

4. Quotes

4.1. In the event that the Company is unable to proceed with an Order, with regard to price or size or other reason, depending in the type of the Client Account, the Company will send a re-quote. The number of re-quotes appears on the Trading Platform.

4.2. The Quotes appearing on the Client's terminal are indicative and are based on the relevant Underlying Markets. However if there is high volatility in the Underlying Market the execution of the Order may change and the Client may obtain the first price that will be available in the market and not the price that was requested.

4.3. The Company provides Quotes by taking into account the Underlying Asset price, but this does not mean that these Quotes are within any specific percentage of the Underlying Asset price. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant Underlying Asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

5. Stop Loss Orders, Trailing Stop and Expert Advisor

5.1. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on his trading terminal and the Company bears no responsibility whatsoever.

5.2. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

5.3. The Client may add "Close at Loss" price or "Close at Profit" at any stage when the position is Open.

5.4. When placing an Order to Close at Loss or Close at Profit, the Client authorizes the Company to close a Transaction at the limit Close at Loss price or Close at Profit price, as applicable, and as agreed in the Order, without further instruction from or notification to the Client. The Company may close the Transaction when the price quoted by the Company on the Trading Platform reaches or surpasses the price accepted by it for such an Order (Close at Loss or Close at Profit).

5.5. The Client acknowledges that the original price level set forth in a Close at Loss Order may be amended as the market on the Trading Platform moves in his favour. Whilst his trailing Close at Loss Order is still in effect, the Client agrees that each change in the market by at least one hundredth of a percentage point (referred to as "Pips" on the Trading Platform) in his favour shall constitute a new offer by the Client to raise the level of his trailing Close at Loss Order by one hundredth of one percentage point. Changes in a Pip will be rounded to the nearest absolute value in the Currency of the Client Account.

5.6. The Client acknowledges and agrees that due to market volatility and factors beyond the Company's control, the Company cannot guarantee that an Order will be executed at the level specified in the Client Order, for example, an Order may be closed at a worse price than as originally specified by the Client in such an Order. In such an event, the Company will close the Transaction at the next best price. For example, with respect to a Close at Loss Order, in the case of closing a Short Position, the price of the Underlying Asset may suddenly increase above the Close at Loss price, surpassing the originally specified by the Client price. In the case of closing a Long Position, the price of an Underlying Asset may suddenly decrease below the Close at Loss price, surpassing the originally specified by the Client price.

5.7. With respect to a Close at Profit Order where the price of an Underlying Asset moves to the Client's advantage, i.e. the price goes suddenly beyond the originally specified by the Client in his/her Close at Profit Order (for example, if the price goes up as the Client holds Long Position or the price goes down as the Client holds Short Position), the Client agrees that the Company can pass on such price improvement to the Client.

5.8. Guaranteed Stop Orders are only available on certain Underlying Assets, as indicated in the instrument details tab. If the Client places a Guaranteed Stop on a new Order the Company guarantees that when its bid or offer quoted price reaches or goes beyond the Close at Loss Order price specified by the Client, it will close the Position at exactly the price the Client specified in the Guarantee Stop Order. An open position can be closed in accordance with this Agreement prior to reaching the Guaranteed Stop Order price level.

5.9. A Guaranteed Stop Order is subject to the following additional conditions:

- a) A Guaranteed Stop Order can be requested only on a new Order and is only available on close at loss conditions;
- b) A Guaranteed Stop Order can be activated or edited only when there is trading and an eligible Underlying Asset is available on the Trading Platform;
- c) Once a Guaranteed Stop Order is accepted by us it cannot be removed - only the price can be changed;

- d) A Guaranteed Stop Order must be placed at a minimum distance (as determined by the Company) away from the current Underlying Asset price being quoted by the Company;
- e) As the Company guarantees to close out price, the spread is adjusted for the additional charge when placing the Guaranteed Stop Order. The adjusted spread is displayed in the Underlying Asset details tab for each eligible Instrument at the time the Guaranteed Stop Order is placed.

6. Expiry

- 6.1. The Company may set an Expiry Date and time for a specific Underlying Asset. Such shall be displayed on the Trading Platform. The Client agrees that it is his responsibility to check for the Expiry Date and time.
- 6.2. If the Client does not close an open Position with respect to an Underlying Asset which has an Expiry Date, prior to such Expiry Date, the Open Position shall automatically close upon the Expiry Date. The Open Position shall close at a price which will be the last price quoted on the Trading Platform immediately prior to the applicable Expiry Date and time.
- 6.3. The Client acknowledges that certain Underlying Markets may become volatile or illiquid without warning. In such circumstances it may not be possible to execute Client Orders, particularly in the period shortly before an expiry.

7. Premiums

- 7.1. Any Open Position at the end of the trading day or over the weekend shall automatically be rolled over to the next Business Day to avoid an automatic close and settlement of the Transaction. The Client acknowledges that when rolling such Transactions to the next Business Day, a Premium will be either added or subtracted from his Client Account with respect to such Open Position. Information concerning the Premium for each Underlying Asset is displayed on the Trading Platform. In deciding whether to open a position, the Client acknowledges that he is aware of the Premium.
- 7.2. The premium is charged daily on the Client Account. The operation is conducted at 23.59 (server time) and can take several minutes.
- 7.3. The Client authorises the Company to add or subtract the premium fees to or from the Client Account for any open Transactions that have accrued such a fee, in accordance with the applicable rate thereto, each day at the time of collection specified on the Trading Platform for each Underlying Asset, as applicable.
- 7.4. The Company has the right to amend in its discretion from time-to-time the calculation days or percentages of Premiums. Such changes shall be effected on the Trading Platform and/or the Website and the Client is responsible to check for updates regularly.

8. Spreads

- 8.1. All CFDs available with the Company have spreads which appear on the Trading Platform and/or the Website. The Company has the right to amend its spreads in its discretion from time to time. Such changes shall be effected on the Trading Platform and/or the Website and the Client is responsible to check for updates regularly.

9. Margin Requirements

9.1. The Client shall provide and maintain the Initial Margin and/or Hedged Margin in such limits as the Company, at its sole discretion, may determine at any time under the Contract Specifications for each type of CFD.

9.2. It is the Client's responsibility to ensure that he understands how Margin requirements are calculated.

9.3. Unless a Force Majeure Event has occurred, the Company has the right to change the Margin requirements, giving to the Client ten (10) Business Days Written Notice prior to these amendments for open positions. For new positions the Company may amend the Margin Requirements with one Business Day Written Notice. All changes shall be effected on the Trading Platform and/or the Website and the Client is responsible to check for updates.

9.4. The Company has the right to change Margin requirements without prior notice to the Client in the case of Force Majeure Event. In this situation the Company has the right to apply new Margin requirements to the new positions and to the positions which are already open.

9.5. Without prejudice to paragraph 13.1. of the Client Agreement, the Company has the right to close and or limit the size of Client open positions (New or Gross) and to refuse Client orders to establish new positions in any of the following cases:

a. The value of Client collateral falls below the minimum margin requirement.

b. At any time that the equity (current balance including open positions) is equal to or less than a specified percentage of the margin (collateral) needed to keep the open position.

c. The Company makes a Margin Call and the Client fails to respond accordingly.

9.6. The Company shall make Margin Calls to the Client automatically via SMS or via the Trading Platform when the Margin in the Client Account has reached a certain percentage of the Equity. When the Company warns the Client that the Margin in the Client Account has reached a certain percentage of the Equity, the Client should take any of the three options to deal with the situation:

a. Limit his/her risk exposure (close trades); or

b. Hedge his/her positions (open counter positions to the ones he/she has at the moment) while re-evaluating the situation; or

c. Deposit more money in the Client Account.

9.7. If the Client fails to take action according to paragraph 9.6 or when the Equity in the Client Account equals or falls under the Maintenance Margin his/her Positions will start closing automatically, the position with largest loss being closed first. In such a case the Company has the right to refuse any new Orders.

9.8. Margin shall be paid in monetary funds in the Currency of the Client Account. Should the client deposit money in a different currency the Company shall make a

conversion into the Currency of the Client Account according to paragraph 18 of the Client Agreement.

9.9. The Client undertakes neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the Margin transferred to the Company.

If the Client has more than one Client Account with the Company, any credit in one Client Account (including amounts deposited as Margin) will not discharge the Client liabilities in respect of any other Client Account, unless a termination takes place. It is the Client's responsibility to ensure the required level of Margin exists for each Client Account separately.
